AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous medicines extant, (and some of them valuable) for the cure of pulmonary complaints, no one has ever been found which could compare in effects with the Cherry Pectoral. Others relieve sometimes, but at all times and in all diseases of the lungs and throat where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise the Cherry Pectoral indiscriminately for all complaints, but for those it will cure. Many of these have tried it but those who have not. Families who have known its value would not be without it. Timely use, they are assured, may save them from the dangerous consequences of Coughs and Colds, which neglected, ripen into fatal consumption.

The Diploma of the Massachusetts Institute was awarded to this combination; by the Board of Judges in 1847; also, the Medals of the three great Institutes of Art, to this country, also the Diploma of the Franklin Institute, and the Premium of the City Pectoral, by their Government in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Throat.

From the following opinion founded on the long experience of the eminent Physician of the Port and City of St. Johns, New Brunswick, it will be perceived that it has done an unwonted amount of good in that section, and is equally well known and valued there as with us.

ST. JOHNS, May 6, 1851.

J. C. Ayer—

Five years trial of your CHERRY PECTORAL in my practice, has proved, what I first spoke from its compositions to be true, that it would cure the colds and coughs to which we, in this section, are peculiarly liable.

I think its equal has not yet been discovered, nor do I know how a better remedy can be made for the diseases of the Throat and Lungs.

J. J. BURTON, M. D. P. R. S.

Now that it has done an unwonted amount of good in this community, not in the following cases, but a thousand others can testify.

Somerset, Jan. 20th, 1851.

Dear Ayer—In the month of July last I was attacked with Bronchitis in the mines of California. I started in search of health in the mines, expecting benefit from change of climate and diet. My Diarrhœa left, but was followed by a severe cough and pain in my lungs. I still started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York I was given up by my acquaintances as a victim of consumption.

I must confess that I saw no sufficient reason to suppose that my friends all believed. At this time I commenced using your truly invaluable medicine with expectation of deriving any benefit from its use. I would not receive those flattering accounts, that I could say to state to the world through the papers, that in the space of eight months I fully restored to health to the use of your Cherry Pectoral.

Yours truly, WILLIAM Y. SMITH.

WASHINGTON, Pa., April 12, 1848.

Dear Sir—Feeling that I have been spared from a untimely grave, through your instrumentality by the blessing of God, I will take the liberty to express to my gratitude, my cough and the alarming symptoms of Consumption reduced me too low to leave my dwelling house, in my physician brought me a bottle of your Cherry Pectoral. It seemed to afford immediate relief, and now a few weeks time has restored me to sound health. I will say for your benefit, you are at liberty to use this in any way you please, as I feel sincerely grateful for your blessing. I am

Very respectfully yours,

JOHN J. CLARKE, Rector of St. Peter's, Church Hill.

Such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon the body.

Dry White of Zinc, 6c per lb.

WHITE ZINC PAINT.

After thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint. For whiteness and brilliancy it is unrivaled, it is free from all poisonous properties so common and dangerous in white pigments, will cover about twice as much surface from 60 to 100 per cent. more space than lead, and is, therefore, much cheaper, to the consumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of shops. Their White Zinc ground in Varnish produces the porcelain finish.

Brown and Black Zinc Paints

in a few hours form a hard and solid metallic coating upon wood, brick, iron and other metallic surfaces, and are remarkable for their fireproof properties. They are specially adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway.

Sir,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, hours ere the virulence of the attack was so alarming, and the inflammation set in so severely that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, the bad sensation relief she continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have had you many more cases, but the above from the severity of the attack, and the speedy cure, I think, speaks most in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

LIFE OF GENERAL SCOTT

(Continued.)

IN PURSUIT OF THE ENEMY.

On the 7th of July, only two days after the battle of Chippewa, the American army again advanced, in order to get possession of Fort George and Burlington Heights. Scott forced the passage of the Chippewa, compelling Riall to retreat upon the latter position. But the works were found to be impregnable to our attack. But Scott was not to be idle. He was destined to be soon victorious another even more desperate and bloody encounter.

BATTLE OF LUNDY'S LANE.

On the 25th of July Major-General Brown received the false intelligence that Riall had so far recovered from his late defeat as to throw across to the American shore, from Lewiston (nine miles below Chippewa) a corps of 1,000 men. He immediately determined upon making a demonstration against the fort below, in order to compel Riall to return. Scott, at the head of his brigade, now reduced by his losses to about 1,300 men, immediately set forth on this errand. But he soon found himself with better work on hand. He had proceeded but about two miles when he fell upon a reconnoitering party of the enemy, and then for the first time ascertained that a large body of their troops were posted in the immediate neighborhood. Pressing on, he came into the presence of a well stationed force under General Riall, about 1,800 strong, who at once opened upon Scott a destructive fire of musketry and nine pieces of artillery. The entire body of the enemy were drawn up on a ridge in order of battle. His right rested on a wood, and his left on a road running parallel with the river. Directly in front, and between the combatants, lay Lundy's Lane. Scott discovered soon after his arrival, that General Riall was being reinforced by three battalions under General Drummond, and that his numbers had been swelled to about 3,000 men.

Finding himself thus surprised into a battle against such odds, he might well have determined to retire and await the arrival of reinforcements under General Brown before going into action. But with undaunted purpose he resolved to stand his ground. He however immediately dispatched an aid to General Brown requesting him to hasten to his assistance. It was now six o'clock in the afternoon. The quick eye of Scott discovering the opportunity, he immediately ordered General Jessup's battalion to turn the enemy's left flank. Under cover of 200 yards of under-growth

State Temperance Convention.

This convention was one of the largest and most enthusiastic ever held in this city. We have only time and space to-day to give the following report of proceedings:

The Convention was called to order Wednesday, at 7½ o'clock, P. M. by the Hon. Mr Peck of Portland, and was temporarily organized by the appointment of Rev A H Cobb of Dutham, Chairman, and James M Lincoln of Bath, Secretary.

Rev Mr Stevens of Norway, offered prayer.

On motion of Mr Mansfield of Portland, voted that a Committee of one from each county be appointed to nominate officers for the convention.

Messrs Stewart of Saco, Peck of Portland, Chase of Buckfield, Morrill of Readfield, Wadsworth of Bath, Davis of Belfast, Tuttle of Smithfield, Ilsley of Ellsworth, Sanford of Bangor, Atwood of Meddybemps, and Cobb of Temple, were appointed said Committee.

On motion, voted that the committee have power to fill the vacancy in Piscataquis and Aroostook counties.

On motion of Mr Thatcher of Bangor, voted that a committee of ten be appointed to report arrangements for the convention.

Messrs Thatcher of Bangor, Bean of Bridgton, Bourne of Kennebunk, Peck of Portland, Yates of Gardiner, Davis of Belfast, Burrell of Limerick, King of Readfield, Richmond of Rockland, and Sampson of Turner, were appointed the committee.

On motion of Mr. Peck of Portland, voted, that the evening be devoted to addresses from gentlemen from different sections of the State and country.

Addresses were then made by several gentlemen.

On motion of Mr Peck of Portland, voted, that when this convention adjourn, it be till tomorrow morning at 8½ o'clock. Adj.

THURSDAY.

Convention met at 8½ A. M.

Committee on nominations reported the names of A S Richmond of Rockland, President,

Gen Alvin Bolster of Rumford, Rev C G Porter of Bangor, C W Bourne, Esq of Kennebunk Vice Presidents,

James M Lincoln of Bath, A M Heath of Monmouth, Wm Sanford of Bangor, Secretaries.

Adopted.

Rev Mr Peck, chairman of the committee of arrangements, asked leave to report the following resolutions:

Resolved, That the passage of the Maine Law by the legislature of this State, was not, as has been alleged, an act in advance of public sentiment, but a measure which the people had long desired, and had a perfect right to demand.

Resolved, That the law is not, as its enemies assert, unjust and despotic, but eminently humane, republican and christian in its provisions and principles; that it works no wrong to the dealer, but seeks alike his good, and the good of all mankind.

Voted, That the first resolution be taken up for discussion—and remarks relative thereto were made by Rev Mr Stinson of Grey, Rev Mr. Hadley of Portland, and Rev Mr. Stevens of Norway.

City Hall being too small to accommodate the immense crowd that filled the seats, aisles and entry, it was voted that the convention adjourn to Lancaster Hall.

Having found accommodations in more spacious quarters, the convention resumed the business upon which it had been engaged. On motion, the first resolution was unanimously adopted.

Voted, That the second resolution be taken up for discussion.

Remarks were made thereon by Rev Mr Carey of Turner, and by Rev Mr Tilton of Bangor.

Mr Thatcher, in behalf of committee of arrangements further reported.

Third, fourth and fifth resolution read.

Voted, That the second resolution be now passed.

Voted, That the report of the committee of arrangements be accepted.

Voted, That the secretary of committee of arrangements be requested to read an address to the citizens of this State—read.

Resolved, That it is the imperative duty of every friend of temperance to vote for such men, and such only, in the coming State election, as are outspoken, and avowed friends of the Maine Law.

Here the proceedings were for a moment interrupted by the arrival of a large, delegation from Oxford county, who came over the Railroad, and were met at the depot by the Sand Brass Band, and escorted up. The accession of numbers filled the hall to its utmost capacity. Their arrival was greeted with three hearty cheers, which was responded to by music from the band.

The committee of arrangements further recommended the appointment of a State Central Committee, to consist of ten persons, who shall have power to secure a thorough organization of the friends of temperance in all parts of the State, with reference to the coming September election, and to aid everywhere in supporting and executing the Maine Law.

The following persons were recommended for that committee:

B D Peck of Portland, W H Hadley of Portland, F E Pray of Portland, Woodbury Davis of Belfast, J L Stevens of Norway, Philip Wentworth of Bangor, G W Bourne of Kennebunk, A S Richmond of Rockland, George G Dawes of Calais.

Voted, That the hour of 11 o'clock be assigned as the time to take into consideration the subject of raising funds in this State, to be placed at the disposal of the State Central committee.

Here the committee as instructed, reported an address to the people of the State, which was adopted, and it was moved that the several editors of papers in this State friendly to the Maine Law, be requested to publish it. This motion called forth quite a warm discussion, which, however, resulted in its adoption.

Here the President announced that the time recommended by the committee of arrangements had arrived, to take up the question of raising funds, and Mr E W Jackson of Boston, was called to make some remarks upon the subject.—He ended by proposing that $2000 be raised in the State, &c., but first moved that a collection be taken up for the purpose of raising funds for publishing the proceedings of the convention.—This was carried, and a collection was taken up which amounted to $12,77.

Members of the convention were then called upon to state what could be raised in their respective towns and pledges were made amounting to $2,350.

AFTERNOON.

The convention met according to adjournment.

The committee of arrangements further reported the following resolution, viz:

Resolved, That when this meeting adjourn, it be to meet in Bangor, at such time as the central committee may direct.

Accepted and adopted.

The third resolution was taken up and discussed by Dr. Buzzell of Limerick, Rev Mr Barrington of Portland, Rev Mr Stevens of Norway, Mr Carter of Portland, and Mr E W Jackson of Boston.

The following resolution, presented by Mr Y C Hanson of Portland, was unanimously adopted, viz:

Resolved, That the State central committee be requested to present to the several candidates for Governor, the doings of this meeting, and to interrogate them as to their real position in relation to the Maine Law.

Voted, That the persons recommended by the committee of arrangements for a State central committee, be adopted by the convention for that office.

Further remarks were made on third resolution by Mr Carter of Portland, A S Richmond of Rockland, Mr Davis of Belfast, Rev Mr Tilton of Bangor, Mr Rideout of Bath, Rev Mr Peck, Mr Yates of Gardiner, N C Fernald of Portland, Baxter of Wilton, Rev Mr Porter of Bangor, and Rev Mr Cutler of Belfast.

Mr Carter of Portland, moved to amend the 3d resolution, by adding the following words "for all offices in which their official action may bear upon said law."

This amendment was adopted, after which the resolution as amended was unanimously passed.

The Convention then adjourned.

HOSTILE IMPORTANT TO AMERICAN FISHERMEN. A correspondent of the New York Herald writes from Washington that the British Colonial authorities are at the present moment adopting the most stringent measures to drive the American vessels from the fishing grounds of the Bay of Fundy, the coast of Nova Scotia and the gulf of St Lawrence, at which points hundreds of those vessels every summer congregate. This is in accordance with other advices from the Provinces. American fishermen are by treaty forbidden to fish within a marine league of the coast, but have been in the habit, hitherto, of disregarding the prohibition. One vessel on board of which is a police force, has been fitted out by the Canadian government to cruise in the gulf of St. Lawrence, four armed vessels have been fitted out by the government of Nova Scotia, one also at Newfoundland, and one by the government of New Brunswick. The British admiral on the North American station has also detailed the steam frigate Devastation to be placed under the orders of the Governor of Prince Edward's Island. An armed cutter has been sent into the bay of Fundy, and has already commenced capturing American fishermen found in its waters. The sloops-of-war have also been despatched in the gulf. It is hoped that American fishermen will take warning in time and thus prevent a violation of treaty obligations, which, if persisted in, will inevitably result in involving the two governments in difficulties, and subject the property of the violators to capture and confiscation.

☞ Ex-Senator Dix of New York, has since wrote a letter greatly misrepresenting the views of Gen. Scott, upon the subject of the Naturalization Laws. His attention has been called to the subject, and after a full investigation of the facts in the case, he has become satisfied of his error and has publicly declared the error. It would have been more to the credit of Mr. Dix to have learned the real opinions of Gen. Scott, before imputing opinions to him in his letter which Gen. Scott does not entertain. His correction of the statement is better than nothing, and should have its whole weight.

☞ The steamer Nimrod, having on board nearly 300 persons, composed, chiefly of the scholars and friends of the Universalist Sunday School at Newark, who were bound on an excursion, took fire on Thursday morning, when about one mile from Bergen Point, causing the greatest consternation among those on board. The boat was completely enveloped in smoke, but the flames were fortunately subdued, and the steamer run ashore. The passengers were rescued by the steamers Passaic and J.C. Hart. The Nimrod sustained but slight damage, while the excitement among the passengers was indescribable.

☞ On Saturday afternoon last, John Hanks, aged 14 years, son of Eldridge Hanks, Esq. was accidentally drowned while bathing at Drummond's Mill Pond. This was the only child of fond parents,—the light of their house. He was a member of the Boys' High School, and of the Sabbath School connected with the New Jerusalem Church. He was, when on earth, the nearest heaven of any boy we ever knew, and we loved him like a son.

☞ Charles Hutchinson, a boy six years of age, son of Horton Hutchinson, was drowned at Brewer on Saturday last. He was at play upon a log near the Toll Bridge, and slipped into the river and was drowned, before aid could reach him.

☞ Attention is called to the notice in another column, of the complimentary benefit of Mr. Brown, a member of Mr. English's talented company, at the City Hall, for this evening on which occasion many attractions will be offered.

☞ We would direct the attention of our readers to the advertisement in another column, of the new Dry Goods Store opened at No. 76 Main-street, by Messrs. Stuart & Co., and of the great sales which they propose to effect.

☞ Amount of lumber surveyed in Bangor from June 30 to July 1st, 1851 and 1852:

	1851	1852
Green Piece	57,853,849	39,000,000
Dry "	13,660,000	11,500,000
Spruce "	24,464,178	19,000,000
Mouldings, &c	5,878,954	4,000,000
	79,038,954	54,000,000

Excess 1851 over 1852 25,000,000

☞ The Canada papers give a column of shipwrecks having recently taken place in the Gulf & River.

CONGRESS.

WASHINGTON, July 8.

Senate. The Senate commenced business at 20 minutes past 10. Mr Atchison took the Chair, and read a letter from Mr King, President pro tem, requesting him to preside to-day.

Mr Atchison said he will take the Chair if the Senate so desire.

Mr Mangum said there was no objection, Mr Chase presented petitions in favor of the homestead law. He asked, inasmuch as this act was one of universal interest, whether the committee on public lands would report on it?

Mr Felch said the committee had considered the bill, and had a pamphlet in the office for information. He thought the committee would report on the bill next week.

Mr Hunter gave notice of a bill providing for the redemption of treasury notes.

Mr Dodge introduced a bill to establish three additional land districts in Iowa, and the same was taken up and ordered to be engrossed.

On motion of Mr Hunter the bill to take up the bill to satisfy certain military land warrants issued by Virginia during the revolutionary war.

Mr Chase moved an amendment, that Virginia should release all claims upon the military reserve land in Ohio, and that the said reserve land be ceded to Ohio.

After debate the amendment was agreed to and the bill was ordered to be engrossed.

On motion of Mr Borland, the Senate took up the bill granting land to Arkansas, to aid in the construction of a railroad from Gaines's landing to Fulton in that State, and it was engrossed and subsequently passed.

Four bills granting pensions to several persons, were taken up and passed.

The following bills were considered, and each ordered to a third reading: A bill regulating the terms of the United States District Court in Iowa; bill granting the charter of the Washington City Gas Light Company; and the bill regulating promotions in the Engineer, topographical Engineer and ordnance corps of the army.

Mr. Douglass, from the committee on territories, reported back several House bills.

Mr Douglass moved to take up the bill providing for the establishment of military posts on the immigrant routes to California and Oregon, each post to be manned by 20 men, and the posts to be 20 miles distant from each other. These posts are to be for the protection of the immigrants, and the forces are to be of volunteers, who shall be paid as other troops of the United States, and at the end of three years' service to receive a section of land on the route. It also gives to H. O'Reilly the right to construct along the lines of these military stations, a line of telegraph, to be protected and guarded by the United States troops, the posts and habitations of the soldiers to be constructed by themselves.

Mr Rusk opposed the bill, and after some debate it was postponed till Tuesday.

The Senate then went into executive session, and after a short time the doors were opened.

The bill for the relief of Amos Knapp, and the bill for removing certain restrictions upon certain Wyandot Indian lands, in Ohio and Michigan, were severally taken up and passed.

On motion of Mr Dawson to take up a bill to refund to Georgia certain advances made to troops during the Indian wars in 1838, the vote stood, ayes 19, nays 2. No quorum voted and the Senate adjourned.

House. The further consideration of the bill to amend the postage law was postponed until to-morrow.

The House proceeded to the consideration of bills amendatory of the law of March 3d, 1851 requiring and modifying the rates of postage and agreed to the amendments proposed to the first section by the Committee of Post Offices and Post Roads, which now reads as follows:

Be it enacted, &c.—That from and after the 30th day of September, 1852, the postage upon all printed matter passing through the mail of the United States, instead of the rates now charged, shall be as follows, viz: Each newspaper, pamphlet, periodical, magazine, book bound or unbound, circular, catalogue, and every other description of printed matter, unconnected with any manuscript or writing, and of the greater weight than two ounces, shall be charged with one cent postage, and one cent for each additional ounce or fraction, for any distance under 3000 miles; and for any distance over 3000 miles, double those rates. All newspapers or periodicals not weighing over one ounce, published regularly, as often as once in three months, and sent from the office of publication to actual subscribers, shall be chargeable with only half the foregoing rates. The postage upon all printed matter to be paid when it is mailed, or quarterly, in advance, at the office of delivery—otherwise, double the foregoing rates shall be charged thereon.

Mr. Gray, from the committee on Post Offices and Post Roads, reported a bill authorizing the Postmaster General to contract for the transportation of the mails semi-monthly, in first class steamships, between Jersey City, port of New York, and Galway in Ireland via St. John N. F., authorizing a contract with the lowest bidder for four years, the sum to be paid for such service not to exceed $10,000 the round trip. Referred to the committee of the whole on the State of the Union.

On motion of Mr Olds, of Ohio, a resolution was adopted calling upon the Postmaster General for information on various points connected with the transportation of the mails between New York and San Francisco.

Mr Olds, from the Post Office Committee, reported a bill declaring the Wheeling Bridge a lawful structure and a post road. A debate ensued on its reference, and was not concluded at the expiration of the morning hour.

The House went into committee on the Deficiency bill and resumed the consideration of the Senate amendments.

When the clause appropriating $137,000 for contingent expenses of the Senate, was under consideration, Mr Jones of Tennessee, moved a reduction of the appropriation, and $4,656 of this was to pay the hotel bill of L Kossuth and suite, while they were in this city. He read the several items of the bill—These expenses were $14 a day for each individual. He never could consent to pay this bill.

Mr Carter said this was the smallest business the House ever engaged in.

Mr Jones wished to know whether or not the gentleman would vote for the amendment?

Mr Carter replied he would it is was four times as much, and never would disgrace this body by higgling about it. Kossuth came here as the guest of the nation, under the supervision of a committee of the Senate. He was sorry to see an appeal made here to low prejudices and ignorance against a man who thank God had sown principles broadcast over this continent.

Mr Jones's amendment was rejected.

The committee, having acted upon other Senate amendments, took up that giving the Collins line of steamships $33,000 per trip for 26 trips a year, for carrying the mail between New York and Liverpool.

Mr Orr proposed to amend, by striking out the amount stated, and inserting $19,250 per trip, for the six additional trips.

After some debate, this amendment was voted down—ayes 64, nays 78.

Mr Meade offered an amendment to reduce compensation to $25,000 a trip, pending which the committee rose, and the House adjourned.

☞ A violent tornado occurred at New Castle, Del., on Tuesday afternoon, during which the steamer Chas was driven from her moorings, went ashore, but was got off. Cottages were unroofed, fences prostrated, trees uprooted, and several persons injured. The tornado was accompanied by a severe hail storm.

Pictorial Geography OF THE WORLD!

By S. G. Goodrich, assisted by literary gentlemen from abroad.

ITS size is super royal, 8 vo., and consists of 1003 pages, and more than 1000 Engravings, ornamentally pricipated, so as to fix in the mind facts that not only illustrate, but distinguish geographical locations, containing a vast amount of various and important intelligence, embracing a popular and scientific system of modern Geography.
It is extremely useful to the young being illustrative as well as descriptive, geography and interesting as a novel to read. It includes recent discoveries in all quarters of the Globe, with copious statistical and commercial tables, derived from the highest European and American sources, embracing authentic information in every department connected with the subject, and it will be found to be more full and complete than any Geography yet published in the United States. This work is continued, and a supplementary volume will be issued when the census and statistics now printing by Congress, shall be completed. As this supplementary volume will be furnished to all who desire it, it will give a permanent value to this work which attaches to no other work of the kind.
The above work, in consequence of its continuation, is entirely excluded from the trade. The Agent, therefore, will call upon the families and individuals and furnish the Book to those who want it.

Lesage's Specific.

A NEVER *failing remedy for thoroughly eradicating* diseases of the Urinary Organs, such as Gonnorrhea, Gleets, Whites, Stricture, Stone in the Bladder, &c., and proves but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above annoying complaints, to beware of those once-a-year things, which unprincipled individuals, without the slightest knowledge of the structure of the human system, recommend, for every disease. Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent their unsolicited certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make him try again!—Lesage's Specific has been the remedy depended on by every clime, the senator, the lawyer, the mechanic, the seaman and the dashing cyprian have all tried it and found it truly the good Samaritan in the hour of trouble.
Dr. Darby annexes extracts from some of his certificates:
U. S. Frigate Cumberland, 1851. I contracted a disease at Naples, and tried all the remedies suggested by the most experienced Surgeons, without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.
Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me of a gleet of 22 months duration.—H. C. D.
Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend it, should I know of any troubled as I was.—J. Brown.
Sold by RALPH H. DARBY, Apothecary, No. 91 Broad street Boston. Price $1,00 per bottle; two bottles $1,75.

Bangor Air-Tight COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.
Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers' Messrs. Easton & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.
—ALSO—
A great variety of other patterns of cooking Stoves, such as the
Our State, Bay State, Empire State, Granite State, State of Maine, &c.,
All or any of which will be sold at extremely low prices.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 Suffolk Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* the communications to forward them free of expense—to Stephen Greenleaf, Solicitor of Patents, Washington, D. C. all necessary Papers and Drawings for Patents, and to render such advice legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at the office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *carefully examining their inventions*, and of consulting in respect to them, *matters in general of importance to inventors*, and *in order to obtain correct views relative to the same*. The experience of fifteen years in the investigation of subjects of this nature, and the value of the collection of Patents, Patent Laws, and patents of different countries, collected at much expense, during the long time this office has been established, together with accounts here, kept of inventions patented at Washington, enable me to be confident to afford inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult to attain.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time Mr. EDDY has been at the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, and whereas at the Patent Office on Solicitor for procuring Patents. These were few, if any, persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors, that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and many Medicinal Purposes.

HIGHLY perfumed by its own ingredients. Recommended daily by the family physicians of every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston.—It is the greatest luxury of daily or gentleman could wish for the improvement of health, for comfort and personal embellishment and its delicate exotic fragrance, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the **Balm of a Thousand Flowers**

already well established by actual experience.

FIRST.—Tans, Pimples, remedies every defects of the Complexion,

And establishes in their stead Beauty and Health, as the liver when both, for the change of sex, the freaks of nature, or disease, have been obscured and undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches, also removes tan, sunburns, sallow tints and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND.—It promotes the Growth and increase of the Hair, causing it to Curl in the most natural manner.

It eradicates the humor, dandruff, giving vigor, health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving, being superior to all descriptions of Soaps.

Creams, Pastes, &c.

As a DENTRIFICE, for *cleansing the Teeth*, it is by far the most magical of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth as white as alabaster. For bathing, for softening infants and for adults to promote sweetness of body, cleanliness, health and strength, and to prevent exertions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.
